## Sadık Pasha Mansion

Just a few steps away from Anadolu Hisarı, the Sadık Paşa Mansion now hosts Kalif's creative world. In this historic street, surrounded by the old mosque next to the mansion, we are delighted to showcase our lightweight concrete furniture, accessories, and other products in this elegant setting.

In our garden, there is a charming place called Kalif Cafe where we joyfully host our guests.

The high-ceilinged rooms and detailed interior design elements reflect the historical atmosphere of the mansion while blending with Kalif's innovative and stylish designs. You can see traces of elegance and aesthetics in every corner.

Discover Kalif's innovative and stylish designs in the elegant atmosphere of the Sadık Paşa Mansion. In this unique place where history, cinema, and modern design converge, explore inspiring details in every corner. Experience the historic texture of Anadolu Hisarı while encountering Kalif's modern lines, and feel the blend of the past and the future.

material and product  
presentation

## Natural Stone-Concrete

There are no colorants or dyes in the composition of our special material, which is produced by mixing natural stone and concrete. In the material, which is produced similarly to terrazzo concrete, smaller natural stones that give color to the concrete are used. This makes the material extra resistant to scratches.

## Lightweight Concrete

One of the most important features of our material is that it is 40% lighter than cast concrete products. Kalif products are entirely handmade. As a result, lighter concrete products that are easier to transport and ship compared to normal concrete have been created.

## Extra Robust

Material, developed after a long R&D process, has very high durability and is very difficult to break. Weak points are identified individually for each product, and iron reinforcements are added where necessary. As a result, our products are manufactured to be as strong as a column.

## Waterproof

Thanks to the insulation and polish in its composition, the surface of our products is water-repellent. They are not affected by water or environmental conditions. This makes them ideal for outdoor use, in gardens, and on balconies. Additionally, since they do not contain colorants, they are not affected by the sun or water and do not fade.

## Easy Cleaning

Thanks to the coating on its surface, it does not absorb stains and does not retain dirt. It can be easily cleaned with any surface cleaner and a damp cloth.

atlas

## above on the skies

“Ruler of life, above.”

In Greek mythology, Atlas is a Titan condemned to hold up the heavens or sky for eternity after the Titanomachy.

Feel the life, not just go along with it. The pot has the name of a mythological character who holds up celestial heavens.

**how to fill your pot?**

To fill one of our pots, first, you need to fill the bottom of the pot with pumice stone.

Later, you must fill it with some soil, just so your plant can stay at top of the pot.

Finally, you can plant your seed or put your full grown plant in the soil.
