About Us

In 2018, Kalif Design, which blossomed with the dreams of two young architects who believed in the endless possibilities of design, stepped into the sector by combining the historical texture of Istanbul with modern designs. While we initially offered products only in the pot category, we expanded our product range over the years and by 2025, we have succeeded in exhibiting 2872 different and original products by offering 359 designs consisting of 177 different series in 8 color combinations in 11 different categories.

Our products are manufactured using a special material developed through our own R&D efforts, combining natural stone and concrete. This material is 40% lighter than cast concrete. As a result, we have created lightweight concrete products that are easier to transport and ship compared to regular concrete. They are resistant to sunlight and water, ensuring no fading over time. Thanks to the surface polish, they do not absorb stains or accumulate dirt. They can be easily cleaned with any surface cleaner and a damp cloth.

As of 2025, we continue to push the limits of quality and design with our professional team of 75 people in our 8,000 m² production and 1,500 m² showroom area. While we focused on Turkey's landscaping sector in the early days, today we are proud to serve in various fields such as furniture, design and outdoor products and export our products to 15 countries. By participating in the most distinguished fairs in the international arena, we announced our understanding of design and quality to the world.

Sadık Paşa Mansion

KOLIF

Mansion Showroom

Just a few steps away from Anadolu Hisari, the Sadık Paşa Mansion now hosts Kalif's creative world. In this historic street, surrounded by the old mosque next to the mansion, we are delighted to showcase our lightweight concrete furniture, accessories, and other products in this elegant setting.

In our garden, there is a charming place called Kalif Cafe where we joyfully host our guests.

The high-ceilinged rooms and detailed interior design elements reflect the historical atmosphere of the mansion while blending with Kalif's innovative and stylish designs. You can see traces of elegance and aesthetics in every corner.

Discover Kalif's innovative and stylish designs in the elegant atmosphere of the Sadık Paşa Mansion. In this unique place where history, cinema, and modern design converge, explore inspiring details in every corner. Experience the historic texture of Anadolu Hisarı while encountering Kalif's modern lines, and feel the blend of the past and the future.

A Stylish Garden Getaway

A peaceful garden in nature, a delightful outdoor living space. Kalif's colorful designs take center stage.

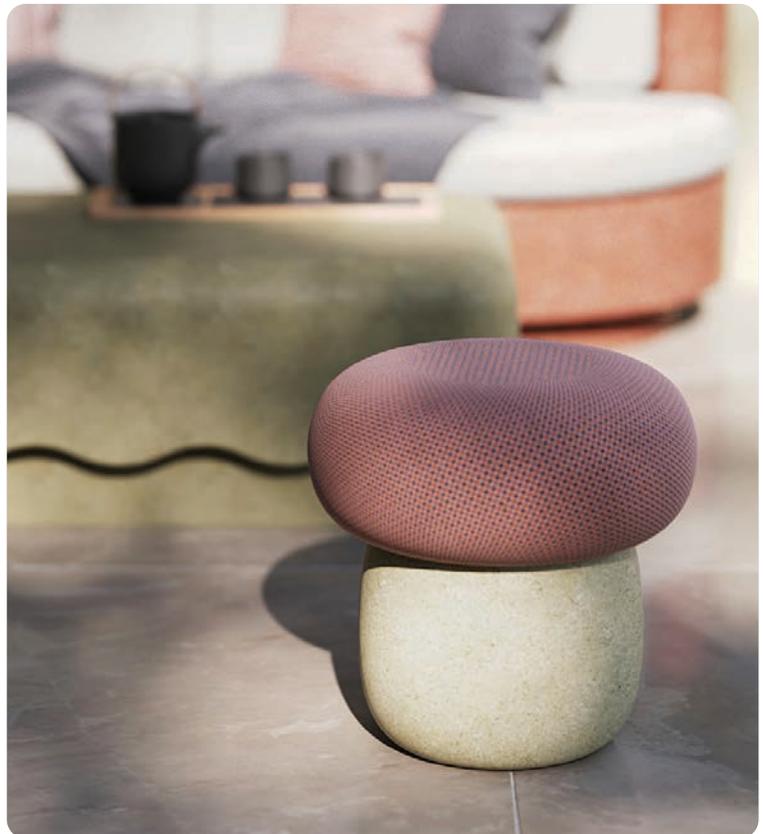

Unusual and Modular

From curved and modular seating groups to organic-textured coffee tables and cork side tables, every detail showcases the power and versatility of this innovative material.

Unique Armchairs

GREAT CHOICE FOR
POOLSIDE

The soft pastel tones of the furniture by the pool add warmth to the space while not compromising on comfort.

A Warm Dinner Table

Kalif's lightweight concrete dining tables not only offer exceptional durability but also present innovative forms that redefine modern outdoor design.

Modern and Stylish Outdoor Café Experience

HOUSE OF 96

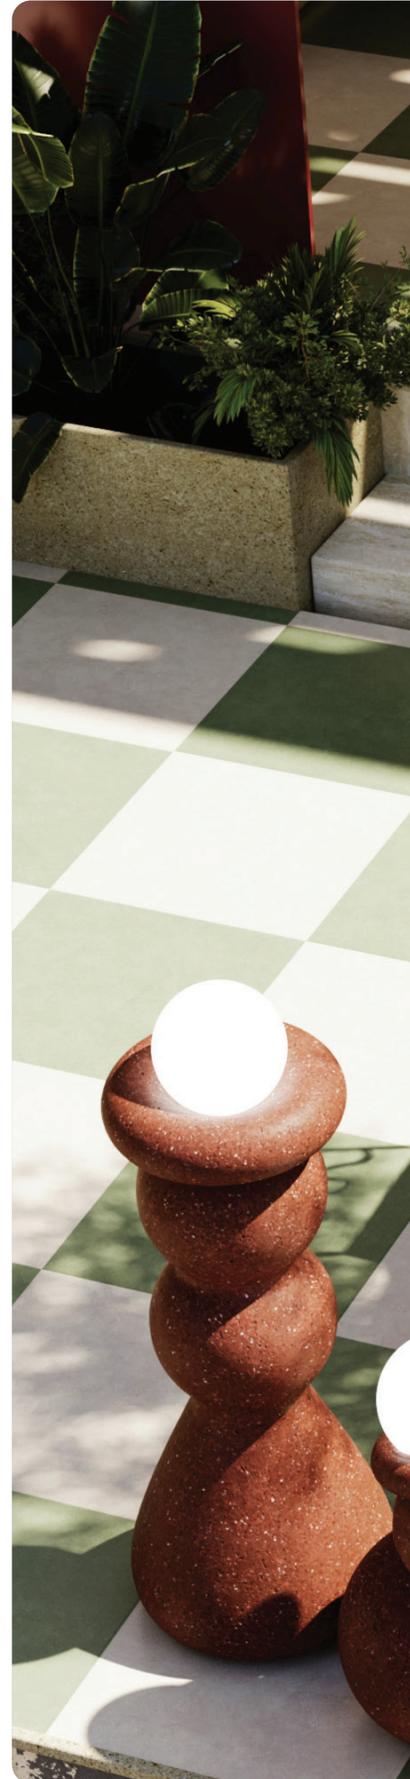

Iconic Concrete Lighting

FOR AN OUTDOOR CAFE
DESIGN

“House of 96” was designed for a unique outdoor café experience. Custom-made concrete tables and chairs push aesthetic boundaries while standing out with their durability.

**Innovative Material,
Contemporary Design**

This café, brought to life with Kalif's innovative concrete chairs and custom-made tables, hosts the perfect meeting of elegance and contemporary design.

Harmonious Curves

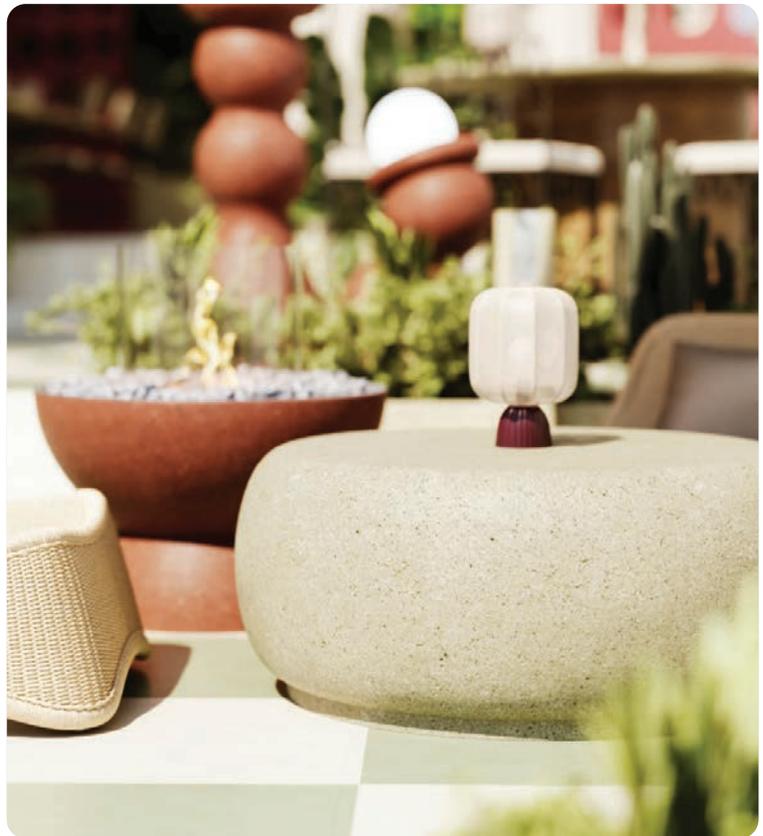

Designed with modern lines, this space combines both comfort and visual appeal. Kalif's new collection products are a perfect match for this setting.

Design in Harmony with Nature

Thanks to its nature-inspired designs, Kalif coffee tables succeed in becoming a part of the natural environment. The fire pit opens the door to entirely new spatial experiences.

A Heartwarming Hotel Room Design

**Small Details,
Big Impact**

The concrete nightstands placed on either side of the bed blend with the soft beige tones of the space, while their curved form instantly softens the room.

**Signature Concrete
Stool Design**

This peaceful interior showcases the fusion of timeless elegance and craftsmanship brought to life by Kalif's concrete designs.

Rahu

MOST LIKED
COFFEE TABLE

One of Kalif's most popular products, the Rahu concrete coffee table, takes center stage in this hotel room as well.

Minimal Dining Corner

The round table paired with a natural rattan chair adds a rustic touch to the design, while the charming concrete stool offers versatile use as additional seating or a focal point.

A Captivating Lobby

First impressions matter. Kalif products create a comfortable reception area in the lobby, aiming to make hotel guests feel at home.

Extra Details

Extra details are a must in good design. Custom fabrics and textures for the project transform into an eye-catching seating corner with Kalif's latest products.

**Inspiration from
Nature**

Organic forms inspired by nature are carefully crafted with handmade techniques. As a result, Kalif products succeed in becoming the most striking pieces in any space they enter.

Aesthetic Forms

Kalif's table designs particularly draw attention with their aesthetic leg forms. In the spaces they are used, they go beyond being just a functional table, becoming one of the design's complementary pieces with their voluminous and sculptural presence.

Innovative Executive Office

An executive office designed with Kalif's latest products, preserving the traditional office identity but stepping beyond the boundaries to offer a unique spatial experience with its colors and forms.

Organic Forms, Modern Comfort

This inviting office space offers a unique blend of organic shapes and modern comfort. Made of lightweight concrete, this striking coffee table adds an aesthetic touch to the space with its fluid form.

Kalif Signature in the Meeting Room

The Metis table adds color to the meeting room while maintaining seriousness with its imposing design. Successfully achieving this challenging design task becomes possible with Kalif's concrete products.

Modern Workspaces with Kalif

The flawless combination of wood and concrete preserves the magic of the space while providing extra storage. The planter, with its sculptural effect, becomes a complementary piece.

Lightweight Concrete on Space

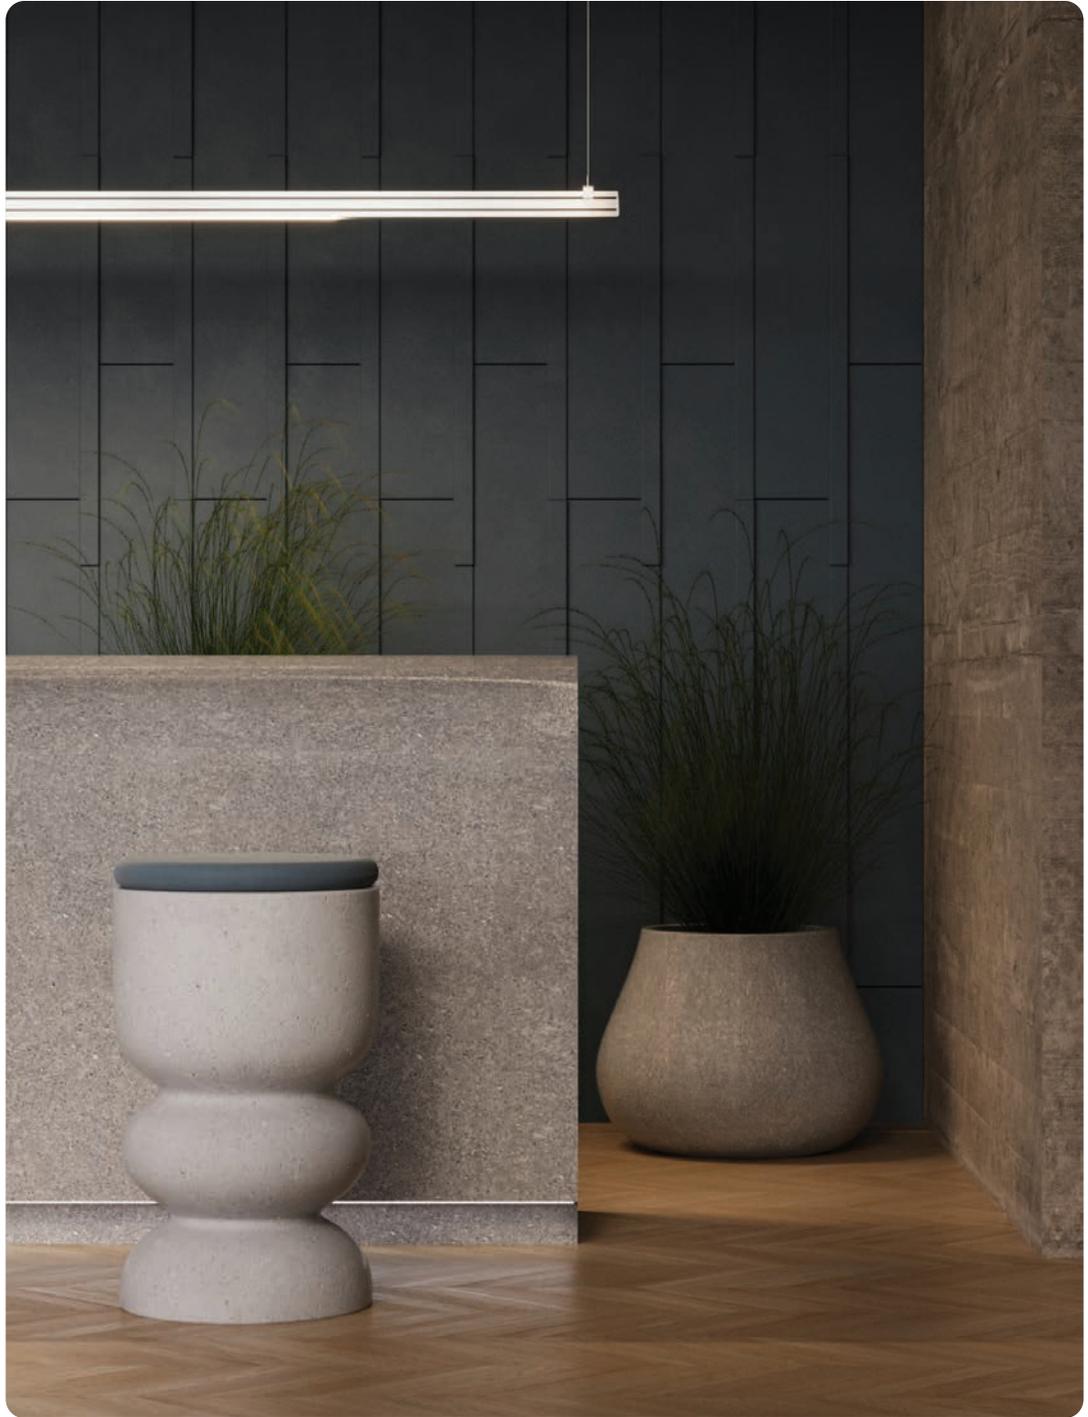

The office lobby gains a simpler yet more elegant look with Kalif's lightweight concrete furniture. The voluminous concrete pieces add a lasting, powerful impact to the space.

Striking Details in the Waiting Area

With their colors and forms, Kalif products become key pieces of a design that sparks curiosity in the waiting area. The soft forms of the bar stools and planters pave the way for creating an inviting atmosphere, despite the cool colors.

Ülgen

Kalif by the Beach

Kalif's furniture proves its durability and lasting impact in any condition and setting, as seen in this coastal project.

**Designed for the
Crowd**

Tables, sofas, and stools create a stylish and functional space to relax and enjoy the beach atmosphere. The sun, sea, and sand do not damage Kalif furniture, resulting in spaces where the magic never fades.
